

THE KINGDOM

The church of God

TN5: 50.4

-1-

The church of God gives present truth, meat in season due,
Without her energy, life on earth would fade away,
As quickly as it would, if the sun and moon withdrew,
Thus only for her sake does the world still stand today.

-2-

The object upon which God bestows supreme regard,
Must first be saved from her Laodicean lethargy,
He often chastens her when the law she fails to guard,
To maintain the high standard with divine energy.

-3-

The church's name expresses the truths she advocates:
Second advent of Jesus and keeping of the law,
Restoration of the Kingdom that she vindicates,
A name befitting her present work on earth below.

-4-

The house of David is the only true church of God,
Bearing permanent healing, and life that springs with youth,
Endowed with pow'r from God's throne, such message in the
Rod,
No taste of death to all those who accept present Truth.
